*Notification No. Gen. 7608—Legis. 39, dated 5th January 1898.*

The following draft of rules proposed to be made under Section 18 of the Mysore Factories Regulation 1892, is published for general information as required by Sub-Section (4) of the said Section and will be taken into consideration by the Government on or after the 1st day of April 1898. All objections and suggestions, which may be received with respect to clauses (2), (3) and (4) of Rule 7 and to the Rule made under clause (2) of Section 18 of the Regulation before the above date, will be duly considered.

**DRAFT RULES (1).**

In exercise of the powers conferred upon it by Section 18 of the Mysore Factories Regulation IV of 1892, the Government of Mysore is pleased to prescribe the following rules:—

1. All references to "the Regulation" or "the Factories Regulation" in these rules are to be understood as referring to the Mysore Factories Regulation IV of 1892.

2. A Register of Factories in Form A annexed to these rules shall be maintained by each District Magistrate for all factories other than railway factories within his district and by the Assistant to the Chief Engineer for all railway factories. In these rules the words "registering Inspectors" mean and include these Inspectors only.

3. On the publication of these rules the registering Inspector shall give notice to the manager or occupier of every factory within his jurisdiction intimating his intention of placing such factory upon his Register of Factories (Form A).

4. Any person served with a notice under Rule 3 whose premises do not fall within the definition of a factory given in the Regulation may, within fifteen days of the receipt of such notice, forward to the registering Inspector a statement setting forth his objections to the registration of his premises as a factory. The registering Inspector shall consider and dispose of such objections after making such inquiry as he may deem necessary, and shall make up his Register of Factories in accordance with the provisions of the Regulation.

5. The registering Inspector may at any time serve a notice, as provided in Rule 3, upon the occupier of any factory which is not already entered in his register of factories, and the provisions of Rule 4 shall apply to the subsequent proceedings in all such cases.

6. When any premises cease to be occupied as a factory, the occupier may give notice of the fact to the registering Inspector, who shall, if satisfied that the Regulation is no longer applicable to such premises, remove them from his Register of Factories.

7. It shall be the duty of every occupier of a factory—

- (1) to fence all machinery and mill-gearing in such a manner as to provide for the safety of the operatives;
- (2) to provide a supply of not less than two gallons of water *per diem* for each operative; of this one half at least must be suitable for drinking and the remainder for washing purposes;
- (3) to arrange for the proper ventilation of the factory so that each operative shall have a sufficient quantity of air; in the case of walled-in masonry buildings the *minimum* space provided for each person shall be 36 superficial feet, 500 cubic feet and 10 square feet of lateral ventilating opening, and in cases in which lateral ventilation cannot be contrived, sufficient supply of fresh air shall be ensured by forced ventilation or such other means as are considered suitable by the Inspector, or, if this cannot be effected, a *minimum* of 54 superficial feet and 900 cubic feet shall be provided for each person;
- (4) to provide suitable and sufficient latrines and urinals, the former containing at least one seat for every 50 operatives, separate accommodation of this nature being provided for female operatives when any are employed;
- (5) to ensure that the factory is generally in a clean and wholesome condition.

8. Every factory shall be inspected by an Inspector as often as may be deemed sufficient, but it shall be inspected at least three times in every calendar year if the factory is open for more than eight months in the year, at least twice if it is open for not more than eight months in the year, and at least once if it is not open for more than four months in the year. At the inspection the Inspector shall cause all children employed on the premises to be examined; examine all registers required to be kept under the Regulation or these rules and see that all orders respecting the secure fencing of machinery and mill-gearing and respecting the water-supply, the ventilation and the sanitation of the factory and the accommodation provided therein are observed and generally that the provisions of the Regulation and the rules made thereunder are being duly carried out.

9. An Inspector may enter a factory for the purpose of Section 4 of the Regulation at any time during the day or night according as work is being carried on therein by day or night, but he shall not examine the children employed therein for the purpose of verifying the registers kept under Section 9 of the Regulation except during working hours.

10. The result of each inspection and all orders and remarks made by the Inspector on the occasion of inspection shall be recorded in the Register of Factories (Form A). When the inspecting officer is not the registering officer, a copy of the record of inspection shall be sent to that officer in view to the insertion of the necessary particulars in the Register of Factories.

11. A copy of every order passed by an Inspector under Section 4 (c) or Section 12 (c) of the Regulation or under these rules in respect of the matters referred to in clauses (b), (c) and (d) of Section 18 (1) of the Regulation and of any remarks made by him on the occasion of each inspection, shall be transmitted to the occupier of the factory, or in his absence to the principal agent in charge of the factory, within twenty-four hours of the same being passed. The despatch through the post, under registered cover, of a copy of such orders and remarks shall be deemed to be sufficient service on the occupier of the factory of any directions contained therein. When the inspection is not performed by the registering Inspector, a copy of any orders or remarks passed should be sent to that officer.

12. Every order for the fencing of any part of the machinery or mill-gearing of a factory which an Inspector may pass under Section 12 (c) of the Regulation and any direction given under these rules with reference to clauses (b), (c) and (d) of Section 18 (1) of the Regulation shall state clearly what is required and shall specify a reasonable time within which what is required to be done shall be completed and shall further give notice that, if it shall not be so completed, the person responsible for the breach of the order will be prosecuted under Section 15 of the Regulation.

13. The occupier of a factory shall, if required by an Inspector, bring before him, on the occasion of inspection, all children employed in the factory and any other persons employed in the factory whom the Inspector may wish to see.

14. Certifying Surgeons under Section 5 of the Regulation shall grant certificates in the Form B appended. Forms of certificate in counterfoil will be supplied to certifying Surgeons.

15. Every occupier of a factory shall keep a file of all certifying Surgeons' certificates relating to persons in his employ and shall produce it when required by an Inspector. Every such certificate shall be returned by such occupier on demand to the parent or guardian of the person to whom it relates on his leaving the factory for other employ.

16. Every occupier of a factory shall keep registers in Forms C, D and E attached to these rules and no such register shall be destroyed or removed from the factory without the written permission of an Inspector.

17. In addition to the notice required by Section 10 (1) of the Regulation, every occupier of a factory shall set up and maintain in a conspicuous place in the factory a printed or written notice, in English and Kannada, in Form F appended, of the daily working hours of the factory. An alternative form is provided to meet the case of factories working on the shift system in which the hours of the shifts are substituted for those of opening and closing work. In factories where the shift system is adopted for a part of the year only, the register will be maintained in either of the alternative forms as may be necessary.

18. Any occupier of a factory on whom an Inspector serves an order under Section 12 (c) of the Regulation may, within seven days after receipt of such order, appeal to the Magistrate of the District.

Appeals from orders passed by District Magistrates in their capacity as *ex-officio* Inspectors shall lie direct to the Government of Mysore. There shall be no further appeal from an order passed by the aforesaid appellate authorities, but the Government of Mysore may review any order mentioned in this rule either of an Inspector or of an appellate authority and may issue any orders thereon which may seem proper. In order that effect may be given to the latter part of this rule, copies of all the orders referred to herein shall be transmitted to the Government of Mysore as soon as they are passed.

19. An appeal under the preceding Rule 18 shall be made in the form of a memorandum of appeal in Form G bearing a stamp fee as regulated by Article 11 of Schedule II of the Court Fees Act and shall be accompanied by a copy of the order appealed against.

20. The appeal shall be heard at as early a date as may be convenient and due notice of the date of hearing shall be given to the appellant and the Inspector.

21. If the order of an Inspector under Section 12 (c) of the Regulation is set aside or modified in appeal, the Inspector shall, as early as possible, deliver to the occupier of the factory such amended order as may seem to him to be required.

22. Notice of all accidents resulting in death or from which the injury is evidently so severe that there is no reasonable hope that the injured person will be able to return to his work within 48 hours, shall be given on the same day on which they occur. Notice of accidents of a less severe character, but which nevertheless prevent the person injured from returning to his work within 48 hours of the occurrence, shall be given immediately on the expiry of the 48 hours' interval allowed by Section 13 of the Regulation. Such notices shall be sent both to the nearest Magistrate having local jurisdiction, and also to the District and Sub-Division Magistrate (where there is such a Sub-Division Magistrate) within whose jurisdiction the factory is situated and also to the registering Inspector. Notice of fatal injuries shall at the same time be given at the nearest Police station as required by Section 45 of the Code of Criminal Procedure, 1882, as introduced into Mysore by Regulation I of 1886. All such notices shall contain full particulars of the accident and shall be sent by special messenger except in the case of the copy to the Inspector which may be sent by post. This notice shall be in Form H appended.

23. A copy of these rules and of the forms appended, with a translation thereof in Kannada, shall be kept hanging in a conspicuous place in each factory.

No. 7930—L. F. 317-96, dated 11th January 1898.

Under Section 226 of the Municipal Regulations of 1871, the Government are pleased to confirm the following Bye-laws framed by the Municipal Commissioners of the Bangalore City :—

By-law No. 24.—Every place other than a water-closet or bath-room, situated within any house, building or enclosure, and habitually used for the purposes of nature or for keeping human excreta shall be considered to be a latrine within the meaning of this Bye-law.

2. The provisions of Sections 3 and 4 of this Bye-law shall extend to all latrines and drains which are private property. The provisions of Sections 5, 6, 7 and 8 shall extend only to such latrines and drains hereinbefore mentioned as belong to or are maintained for the use of any house, building or enclosure which is assessed in the Municipal books at an annual valuation of Rs. 200 or more.

3. Every latrine shall be provided with a seat or platform so made as to compel the excreta to fall entirely into a suitable receptacle placed beneath.

4. All drains emerging from any house, building or enclosure and passing down the external surface of plinths or walls facing any public street shall consist of pipes or be covered with masonry.

5. The floor of every latrine shall be so sloped, drained and constructed as to prevent fluid from being retained on its surface and from soaking into the floor, ground, plinth or walls of the latrine.

6. All drains or continuations of drains, for the removal of fluid from any part of a latrine or of fluid which is contaminated or likely to be contaminated with animal refuse shall be sufficiently large, well laid and water-tight to prevent their contents from overflowing or stagnating, or soaking into any ground, floor, plinth or wall; and shall discharge in one of the following ways, *viz* :—

(a) into a movable receptacle of such proper shape and size as entirely to receive and retain all the fluid, and not cracked, broken, perforated, rotten or pervious to fluid.

(b) into a receptacle covered with a movable lid, and of such proper shape and size as entirely to receive and retain all the fluid and so constructed as to prevent the fluid from soaking into any ground, floor, plinth or wall.

(c) into a receptacle, not less than four feet square in superficial measurement and nine inches deep, so constructed as to prevent the fluid from soaking into any ground, floor, plinth or wall, and filled with so much sand as will absorb all the fluid.

(d) through such filtering material, as the Commissioners may deem sufficient, into an open public drain notified by the Commissioners as being set apart for the purpose.

(e) into a closed drain notified by the Commissioners as being set apart for the purpose.

7. All drains for the removal of fluid from bath-rooms, cooking-rooms, sculleries, mills and factories shall be sufficiently large, well laid and water-tight to prevent their contents from overflowing, stagnating or soaking into the foundation floor, plinth, or wall of any dwelling house; and no such drain shall discharge into any street, or into any drain or water channel except such as the Commissioners shall have notified as being set apart for the purpose.

8. Every house, building or enclosure which has a latrine shall be provided with a separate entrance for the entry of scavengers for the purpose of cleaning the latrine.

9. If the owner of any house, building or enclosure neglects, within eight days from the receipt of a notice issued by the Commissioners, to comply with all or any of the provisions of this Bye-law, he shall be liable, on conviction before a Magistrate, to a fine which may amount to ten rupees for every day that such neglect may be continued after the expiration of such notice.

Bye-law No. 25.—Every latrine as described in Bye-law No. 24 shall be provided with a suitable receptacle placed beneath the seat or platform described in clause 3 of the said Bye-law. The receptacle shall be a movable vessel of such proper shape and size as entirely to receive and retain all the excreta, and not cracked, broken, perforated, rotten or pervious to fluid.

2. Every latrine shall be provided, if so ordered by the Commissioners by notice, with a movable vessel not cracked, broken, perforated, rotten or pervious to fluid, for the purpose of receiving and retaining urine.

3. Every house shall be provided with a dust-bin.

4. No filth, rubbish, ordure or other offensive matter shall be kept otherwise than in one of the receptacles described in this Bye-law and no human excreta shall be kept otherwise than in the receptacles described in clauses 1 and 2.

5. If the occupier of any land, building or enclosure neglects to comply with all or any of the provisions of this Bye-law, he shall be liable, on conviction before a Magistrate, to a fine which may amount to ten rupees for each offence.

Bye-law No. 26.—The owner of every house, building or enclosure which is assessed at an annual valuation of Rs. 200 or more, shall provide such drains as may be necessary for the removal of all fluid which is or is likely to be contaminated with animal refuse, or which escapes from bath-rooms, cooking rooms, sculleries, mills and factories.

2. The occupier of any house, building or enclosure shall not allow the drains thereof to become so obstructed as to cause their contents to stagnate or overflow.

3. Where sand or filtering material is required under clause 6 (c and d) of Bye-law No. 24 sufficient shall be provided by the occupier for the purposes indicated; and the same shall be changed whenever it becomes offensive.

4. If the owner or occupier, as the case may be, of any land, building or enclosure neglects, within three days from the receipt of a notice issued by the Commissioners, to comply with all or any of the provisions of this Bye-law, he shall be liable, on conviction before a Magistrate, to a fine which may amount to ten rupees for every day that such neglect may be continued after the expiration of such notice.

No. 6465—*Ft. F. 36-95, dated 18th January 1898.*

Under the provisions of Section 9 of the Forest Rules of 1878, the Government of Mysore are pleased to notify the following revised boundaries of the Aldahara State Forest in the *Shimoga taluk* in lieu of those described in Government Notification No. 23538—R. 3437, dated 19th June 1895.

Name of forest.	Area approximate.	Boundaries.
Aldahara State Forest, Shimoga taluk.	17 Sq. miles.	<p>North.—Starting from the 13th mile stone of the Shimoga-Yedahalli road the demarcation line runs in an easterly direction close by the Chaudikatte and Hoskere tanks of Aldahara village and excluding Aldahara and Malalkatte villages turns northwards as far as the Gaudankatte tank. Thence it turns eastwards, runs as far as the bandhs of Umblebail, Aldahara and Husekatte, then proceeds to the top of the hill and goes and joins the boundary between Husekatte and Tamdihalli after going through S. No. 23 of the last named village.</p> <p>East.—From the above point the line turns to due south and passing through Tamdihalli, Gonibede, Malgenhalli, Tavargatta, Bhairapur and Singanmane, goes and joins the boundary between the last two villages on the left bank of the river Bhadra. From here the line follows the river towards its source until the line turns to due west.</p> <p>South.—From the last named point the line runs along the left bank of the river as far as S. No. 3 of Chikharahalli, and then turning north-west as far as the northern point of S. No. 9 of the same village goes direct to Basavankere tank of the Harnhalli village, and excluding it turns in a south-westerly direction, joins the bandhs of S. No. 39 of Bhairapur and S. Nos. 58 and 127 of Nelgadde village. The line then follows the boundary between Nelgadde and Bhairapur villages as far as the bank of the river Bhadra and goes along the river Bhadra as far as the Nelgaddehalli.</p> <p>West.—The line then follows the Nelgaddehalli as far as the S. No. 127, and crossing the halli joins the Shimoga-Yedahalli road at the 2nd furlong of the 16th mile and thence it goes along the road and joins the starting point at the 13th mile stone.</p>

No. 6402—*R. 2074, dated 17th January 1898.*

In exercise of the powers conferred by Section 233 of the Land Revenue Regulation, the Government of Mysore are pleased to direct the following addition at the end of para 1 of Rule XVI of the Land Revenue Rules.

“or to cultivate at all the bed of a tank or katte when such tank or katte is useful to land below it or is used for domestic or drinking purposes.”

2. With this addition the Rule will be as quoted hereunder :—

Section 48. XVI.—“In the Survey Registers a deduction is made in some fields on account of  
 Phot kharab. “barren land (phot kharab) and the assessment placed on the  
 “arable land alone. In the event of any portion of the land so  
 “deducted being brought under cultivation, no extra assessment  
 “need be levied on that account. This rule, however, does not confer permission to obstruct roads, channels, and right of way generally or to cultivate at all the bed of a tank or katte, when such tank or katte is useful to land below it or is used for domestic or drinking purposes”.

No. 6638—*R. 2155, dated 19th January 1898.*

It is hereby notified for public information that, under Rule XX of the Rules published under the Land Revenue Code, the right of occupancy of the undermentioned Government unoccupied lands, which are irrigable by the Chamraj Channel Extension in the Yedatore taluk, will be sold by public auction on the spot by the Deputy Commissioner, or such Officer as he may appoint in this behalf, on the 10th February 1898 and on the following days. The sale will commence at 11 A. M. and the lands will be knocked down to the highest bidders without reserve.

2 For further particulars, see the Notification published by the Deputy Commissioner of the Mysore district at pages 35 to 40 of Part II of the *Mysore Gazette* of 13th January 1898.

No. 6781—*R. F. 54-96, dated 21st January 1898.*
